SteriPack announces opening of new Package Testing Laboratory

SteriPack has opened its first in-house testing laboratory to provide protective package testing services to facilitate its growing customer base worldwide.

SteriPack's Laboratory operates services at its headquarters in Clara, Ireland. Services available include Bendtsen, Transportation and Altitude testing. Materials can be analysed using Gelbo Flex testing and the latest in FT-IR scanner technology. Expanding into Package testing services enables SteriPack to continue to deliver on our strong reputation of providing quality work and customer service to our growing client base and is a tremendous boost to SteriPack's production capabilities.

For more information about SteriPack's testing capabilities, contact Gary Leonard, Technical Manager at +353 57 9331888 or [Email Us](#) [View Tests we can offer](#)
