SteriPack's newly accredited ISO 17025 facility

SteriPack Laboratory is now accredited to ISO 17025 status by INAB for its Package Testing Laboratory in Co. Offaly, Ireland. This is SteriPack's first in-house testing laboratory and already it provides protective package testing services to facilitate its growing customer base worldwide.

Services available include Bendtsen, Transportation and Altitude testing. Materials can be analysed using Gelbo Flex testing and the latest in FT-IR scanner technology.

Cleanroom Moulding now available in Malaysia

SteriPack Malaysia is delighted to announce the addition of clean-room moulding to their list of capabilities. The Boy 35T machine is ideal for precision components that require exacting tolerances. Full mould and product design services can also be carried out to ensure smooth and efficient product delivery.

The laboratory accreditation means that we can offer our clients an unsurpassed level of expertise, and proficiency in our testing.

For more information about SteriPack's testing capabilities, contact Gary Leonard, Technical Business/Development Manager at +353 57 9331888 or [email](#)
